Health
INTRODUCTION

Before tutors and students can begin planning lessons, goals need to be set according to those expressed by the student and his/her existing level of English. Once the goals have been set (to gain employment, to be able to shop independently, to be able to communicate with their children’s teachers, etc.) then the planning can begin.

This packet (1 of 10) has been developed to assist tutors in creating lessons that will help students in a practical manner in their every-day life. Life skills are listed under each topic or subject with ideas for practice activities. The use of real-life material, e.g. actual application forms, the telephone directory, the newspaper, in the lesson provides the student an opportunity to practice in a safe, non-threatening environment. Some examples of real-life material are included.

To give the tutor and the student satisfaction that progress is being made toward the goals, an Achievement Log has been developed. The log is for the recording by the student of those accomplishments achieved beyond and outside the lesson time. It might be that your student can now make phone calls, help a child with homework, write a note or fill out an application form. An awareness of these changes will motivate your student to set the next goals.

Materials for These Techniques

HEALTH

Here are some life skills that can be used as the basis for a lesson with suggestions for practice activities.

1. Identify and speak the body parts.

   Suggestions: Together practice asking and answering questions, e.g. Where is your ear? This is my ear.

2. Find the telephone numbers of a local hospital, a doctor, a dentist, an eye doctor in the phone book.

   Suggestions: Write the numbers on a card to be kept near the telephone.

3. Make an appointment to see a doctor, a dentist, or an eye doctor.

   Suggestions: Discuss what information needs to be used in a telephone call to make an appointment. Together practice the phone call.

4. Call 911 in an emergency.

   Suggestions: Discuss when emergency calls should be made. Discuss the vocabulary that would be used in making the call. Practice the call.

5. Complete a variety of medical history forms.

   Suggestions: Select those words that the learner needs to be able to read, e.g. new patient, insurance, marital status. Make a list of the words. Look for the words on different medical forms.

6. Explain medical symptoms, e.g. My shoulder is sore. I have a pain in my chest.

   Suggestions: Make a list of common medical ailments. Together practice telling a doctor about the medical problem. (See page 8 for a crossword puzzle on symptoms).

7. Understand simple diagnostic/medical terms, e.g. blood pressure, temperature, pneumonia, infection.

   Suggestions: Make a list of simple medical terms. Discuss them.

8. Apply for medical insurance.

   Suggestions: Collect the necessary forms. Discuss the different options available. Fill out the forms.
9. Understand and complete medical claim forms.
   Suggestions: Read and discuss the information. Fill out the forms.

10. Explore and understand free medical resources. (See page ?)

11. Request medical records.
   Suggestions: Discuss when this might be necessary. Practice writing a note or
   making a telephone call to request records. Follow and understand emergency
   room procedures/forms.

12. Follow and understand emergency room procedures/forms.
   Suggestions: Visit an emergency room. Note signs and forms that have to be
   filled out.

13. Find a pharmacist.
   Suggestions: Use the yellow pages in the phone book to find a convenient
   pharmacist. Locate the pharmacy on a map.

14. Find over-the-counter medicines in a pharmacy.
   Suggestions: Make a collection of packages of over-the-counter products.
   Discuss them. Visit a pharmacy and look for a variety of medicines.

15. Read and understand directions for over-the-counter medications.
   Suggestions: Examine the directions on a variety of products. Study the words
   that are most relevant.

16. Fill and refill prescriptions.
   Suggestions: Discuss the procedure for renewing medicine in various ways, e. g,
   over the phone, in person, using the mail.

17. Read and understand instructions for prescription medications.
   Suggestions: Examine labels on a variety of medications. Discuss terms, e.g.
   twice a day, every four hours, take with meals.
18. Understand the schedule for childhood immunization shots and where to have them done.

Suggestions: Discuss where this information can be found. Find the locations on a map.

19. Know how to convert Celsius temperatures to Fahrenheit. (See conversion chart on page ?).

Suggestions: Practice converting temperatures.

20. Know how to convert centimeters and kilograms to pounds, feet, and inches. (See conversion scale in the back of this packet).

Suggestions: Practice converting height and weight measurements.

21. Know how to read a doctor’s appointment card.

Suggestions: Obtain an appointment card. Discuss how the date and time is listed. Practice converting the time from military time (24-hour clock) to American time. Discuss how to cancel an appointment.

22. Know how to find medical resources.

Suggestions: Discuss where to locate medical information, e.g., library, Internet, pamphlets in doctor’s offices, hospital referral services, etc.
Activities for Building Vocabulary

Scavenger/Treasure Hunt. Make a list of words relating to the topic being studied, e.g. food, furniture, dictionary terms, etc. and ask the student to find them as you follow along, or if feasible, bring the objects to you. Variation: Say the word and ask the student to write the word on a Post-it Note and attach it to the located object.

Scrabble Game. Distribute the Scrabble tiles as directed by the game. Ask the student to spell out any word he/she can with these pieces. Play and score as in regular Scrabble as you and the student compete for points. Variation: Have student throw a die to determine how many tiles can be picked from all the tiles on the table and used to form words.

Reading Numbers. Create a deck of cards consisting of one digit on each card. Shuffle and lay down three cards, for example 352, and read the number aloud. Ask student to place one card next to any of the three digits and then read aloud the resulting number. For example, placing a 4 next to the first card results in "four hundred fifty-two." Placing a 4 next to the second card results in "three thousand four hundred fifty-two." Variation: Place a dollar sign to the left and include a decimal.1

Board Game. Trace around a quarter to form a series of circles across the top, bottom, and both sides of a sheet of paper. Write a vocabulary word inside each circle. Ask student to roll a die and move his/her marker (button or penny) that many spaces and then say a sentence using the word on which he/she landed. Variation: Play the same way but student asks a question using the word landed on.2

Dictation. Select or compose a short story or passage containing vocabulary words studied. Dictate the story. Provide the student with a printed version of the story with lines representing words omitted. Ask the student to listen to the story and write in the missing words on the lines provided as the dictation is given. Gauge the number of missing words according to the ability of the student—provide a small number for beginners and a larger number for more advanced students. Variation: Record the story on a tape so the student can do it as homework and can listen to the tape as often as needed.

Strip Story. For beginning students, write each sentence that makes up a short story on strips of paper. For more advanced students, write the main events that make up a story on strips of paper, one event to each strip. Read the story to the student or ask the student to read it. Ask the student to arrange the strips of paper in the proper order of the story.

Concentration. Write matching pairs of vocabulary words on cards, e.g. holidays and the dates, antonyms, synonyms, idioms, etc. Place the cards face down on the table. Student turns over one card and tries to find the matching card. If cards match, they are left on the table face up. If cards do not match, both cards are turned over and two more cards are selected. Game continues until all cards have been turned over. Variation: Play this game with two or more students.

Across clues
4. My father has arthritis. His back and his knees hurt. He has aching joints. It's ________ for him to move. Sometimes the pain is bad. He says it's because he's getting old.

6. "On Saturday my daughter fell down and ________ her chin." "What did you do?" "I was worried because it was bleeding a lot, so I took her to the emergency room." "Did she need stitches?" "No, the doctor said it would heal okay with a special bandage."

7. "My husband can't sleep at night. He coughs all night. His chest is congested and it hurts when he breathes." "Maybe he should go to the doctor." "We want to the doctor today. They took an X-ray, and they said his lungs look okay. The doctor said he has bronchitis. He's taking some ________ now." "I hope he feels better soon."

8. Husband: "Are you still feeling sick? Your head feels _________. Maybe you have a fever."
Wife: "I just took my temperature. The thermometer says 99 degrees Fahrenheit, so it's almost normal."
Husband: I think you should rest today. I will cook dinner for you.

9. "I'm worried about one of my teeth." "Do you have a toothache?" "Not really, but it hurts when I eat or drink something very cold. That tooth is really sensitive to cold."
"Maybe you have a cavity. You should see the _________."

1. My friend Abbie has very bad allergies. In the winter she is fine, but in the spring she sneezes when she goes outside. Her eyes get red and itchy. Her nose is runny. She is allergic to tree pollen and other things. If she stays inside with the air conditioner on, the symptoms are better.

2. "My son says he feels very ________ to his stomach. He has been nauseous all day." "Has he been vomiting?"
No, he didn't throw up yet but he feels really sick. "You should check to see if his abdomen is tender. He might have appendicitis." "That's good advice, thanks."

3. "Last night I started getting a sore throat. It hurts when I talk or eat something. Today I feel worse. I think I'm coming down with a cold." "Are you coming to English class?" "No, I think I should go to bed. I'm very tired and I need to _________."

4. I'm worried about my mother. She says she can't sleep at night. "Has she had insomnia before?" "No, this started just a few weeks ago. I told her to see the ________ but she doesn't want to go."

5. "Hi, I'd like to make an appointment with Dr. Mica." "Sure. And what is it about?" "I have bad headaches almost every day. "How long have you had them?"
"About three weeks." "Where is the pain?" "Usually in the front of my _________. My forehead hurts and sometimes my nose and cheekbones hurt." "Okay, we can give you an appointment on Friday."

Consent for Uses and Disclosures

The DuPage County Health Department may use and disclose protected health information about you in order to carry out treatment, payment and health care operations.

You have reviewed a copy of our current Notice of Privacy Practices. The Notice of Privacy Practices provides you with a description of the uses and disclosures the Department may make. The provisions of these policies and procedures may be revised as necessary and you at any time may request updated copies from the Department's Privacy Officer. You have the right to review these policies and procedures prior to signing the consent.

You have the right to request that the Department restrict how your protected health information is used or disclosed to carry out treatment, payment or health care operations. The Department shall adhere to any restrictions agreed to.

You have the right to revoke this consent in writing at any time, except to the extent that the Department has already taken action based on the current consent.

By signing this form, you consent to the Department's use and disclosure of protected health information about you for treatment, payment and health care operations. You also confirm that you have not requested any restriction on the Department's use or disclosure of protected health information.

This consent is a condition of your treatment with the DuPage County Health Department. If you decide not to sign this consent, the Department may decline to treat you. If you are unable to complete and sign this consent for any reason please advise the Department immediately.

Diet History - Infant

Please complete both sides of this form and bring to your baby’s clinic appointment.

Infants Name ___________________________ Date ____________

1. Are you primarily breastfeeding or bottlefeeding? __________________________

If breastfeeding, answer Section A.
If bottlefeeding, answer Section B.
If both, answer Sections A & B.

A. Breastfeeding:

2. How many times in 24 hours does your baby nurse? __________________________

3. How long does the baby nurse at each breast? __________________________

4. Does your baby ever take a bottle? YES NO 
   If YES, what does your baby take from the bottle? __________________________
   How often does your baby take a bottle? __________________________
   Reason for giving formula __________________________

5. Are you having any specific problems breastfeeding? __________________________

6. When do you plan on weaning your infant? __________________________

7. Are you taking prenatal or any other vitamins at this time? __________________________

8. Are you having any problems with sore nipples? __________________________

9. When the infant nurses, do you feel tingling? ________ burning ________ full feeling ________ thirsty ________ leaking on the other side ________ nothing ________ other ________

10. Who initiates end of feeding? You ________ infant ________

B. Bottlefeeding:

2. Did you ever breastfeed your baby? YES NO 
   If YES, how long did you breastfeed? __________________________
   Why did you stop? __________________________

3. What kind of formula does your baby take? __________________________

4. How do you prepare it? __________________________

5. How many times a day does your baby take a bottle? __________________________

6. How many ounces of formula does your baby take per bottle? __________________________

7. Does your baby take anything else from the bottle? YES NO 
   If YES, what? __________________________

C. All Infants:

8. Who usually feeds the baby? __________________________

9. How would you describe your baby’s appetite? __________________________
   GOOD ________ FAIR ________ POOR ________

10. Are you happy with your baby’s weight? YES NO 
    If NO, why not? __________________________

11. Has your baby ever had an allergy to food or formula? YES NO 
    If YES, what? __________________________

12. Does your baby take any vitamins? YES NO 
    If YES, what kind? __________________________

13. Does your baby have any problems with (please circle):

   DIARRHEA ____________ CONSTIPATION ____________ GAS ____________ VOMITING ____________ SPITTING-UP ____________

WIC002 5/94
14. Is a pacifier used? ___YES ___NO How much? _________

15. Is your infant taking other foods at this time? YES NO if YES, circle foods your child eats/drinks:

infant cereal  juice  cow's milk  strained fruits
strained meats  cookies  table foods  strained vegetables
snack foods

16. Do you have any questions regarding nutrition or what foods to feed your baby? If YES, what are your concerns?

____________________

24 HOUR RECALL

Please write down everything that you baby eats the day before your Clinic appointment, including the time, amount, and how the food was prepared. Include all formula, foods and beverages the baby eats for a 24 hour period.

<table>

The equation for converting Fahrenheit to Celsius is:

\[(\text{Degree F} - 32) \times \frac{5}{9} = \text{Degree C}\]

The equation for converting Celsius to Fahrenheit is:

\[\text{Degree F} = \left(\frac{9}{5}\right) \times \text{Degree C} + 32\]
